

Power Electrical Equipment and Service

Transformers, Switchgear, Motor Control Centers, High Voltage Breakers and Substations, Capacitors, and Relays (Arc Flash and Protective) for ANSI and IEC Standards

Transformer Secondary Oil Containment and Remediation System

Cutting and Grinding tool rental and sales
No Heat Spark
No Hot Work Permit Required

Fabricated Steel, Specialty Instrumentation and Control Panels

No Spark Safety Tools
No Hot Work Permit Required

Rental and Refurbished Sales of Power Electrical Equipment
Transformers, Switchgear, Motor Starters, Circuit Breakers

SCADA Systems
Power Monitoring and Control Systems

Documentation Services, Reverse Engineering, OEM Drawing Consolidation

Complete Plant Electrical Design
Electrical and Arc Flash Studies
Turnkey Engineering Projects

Asset Management via Intelligent Video Surveillance Solutions
